

STEP

Sistema composto da binari per l'applicazione di ante e scala scorrevoli.

System composed of rails for the application of sliding doors and ladder.

METAL STAMPI

SH System Holz

STEP

- Sistema composto da binari per l'applicazione di ante e scala scorrevoli.

STEP

- System composed of rails for the application of sliding doors and ladder.

STEP

- Système composé rails pour l'application et crémaillère de portes coulissantes.

STEP

- System bestehend aus Schiene für die Verwendung von Schiebe Türen und Leiter.

**[Parte superiore - Upper part
Partie supérieure - Oberteil]**

- Nella parte superiore il sistema è dotato di un binario di alluminio fissato al mobile dove è ricavata una sede in cui scorre la ruota in plastica della scala; all'interno del binario scorre, inoltre un carrello per permettere lo scorrimento di ante in alluminio o legno.

- In the upper part, the system is equipped with an aluminium rail fixed to the furniture inside where slides the plastic wheel of the ladder; a roller slides inside the rail to allow the sliding of aluminium or wood doors.

- Dans sa partie supérieure le système est équipé, d'un rail en aluminium fixé sur le meuble où est creusé un emplacement où coulisse la roulette en plastique de la crémaillère; un chariot coulisse à l'intérieur du rail pour permettre le déplacement des portes en aluminium ou en bois.

- Im Oberteil verfügt das System über eine am Möbelstück befestigte Aluschiene, in der das Kunststoffrad der Leiter gleitet; innerhalb der Schiene gleitet ein Fahrgestell für das schieben von Alu- oder Holztüren.

**[Parte inferiore - Lower part
Partie inférieure - Unterteil]**

con perno
with pivot
avec goujon
Mit Bolzen

con pattino
with sliding block
avec patin
Mit Gleitschuh

- Se è utilizzata un'anta scorrevole nella parte inferiore è previsto un binario di alluminio, fissato al mobile, dove scorrono al suo interno il perno "A" o in alternativa il pattino "B", fissati entrambi all'anta.

- If a sliding door is used in the lower part, an aluminium rail has to be fixed to the furniture, allowing a pivot "A" or a sliding block "B", both fixed to the door, to slide inside it.

- Si une porte coulissante est utilisée, il est prévu dans la partie inférieure un rail en aluminium, fixé sur le meuble à l'intérieur duquel coulissent le goujon "A" ou alors le patin "B", tous les deux fixés sur la porte.

- Wenn eine im Unterteil gleitende Tür verwendet wird, ist eine am Möbelstück befestigte Aluschiene vorgesehen, in der der Bolzen "A" oder als Alternative der Gleitschuh "B" gleiten, beide an der Tür befestigt.

• **Indicare nell'ordine:**

- 1) codice scala
- 2) lunghezza e codice binario scelto
- 3) componenti

• **When placing the order, please specify:**

- 1) ladder code
- 2) length and code of chosen rail
- 3) components

• **Indiquer dans la commande :**

- 1) code crémaillère
- 2) longueur et code rail choisi
- 3) composants

In der Bestellung angeben:

- 1) Leitercode
- 2) Länge und Code der gewählten Schiene
- 3) Bestandteile

**[Applicazioni profili superiori - Installation of upper tracks
Applications profils supérieurs - Anwendungen von Oberprofilen]**

a tirante, with tie rod, à tringle, mit Zugstange
